

I wish I could.

I wish I could
enjoy working
w/ computers
again, which
I used to love

I used to
spend 5-6 hrs
per day in front
of computer. Now
I don't want to
sit in my name
on the computer
(max 30 min)

Hope growing up
A Future as an
IT Engineer
This changed in
when I came
Sweden

I don't enjoy
being home!!
But I do
feel it is my
home.

More that is
over away

I write up lyrics
& sing. I used to
do it in a club w/
my group, but now that
I am 26 I am not
allowed in the club
(only for under 25)

You work in order
to earn money but
also I feel like you
when you have no
job... you don't have
the chance to make
future

I know what I
want but I don't
know how

Education
I can't use my
high school degree/
diploma in Sweden,
so I have to start
all-over again
